

Post Graduate Grading Criteria for Coding/Programming Exercises

Criteria	100-90% (Exceptional-Distinction)	89-80% (Outstanding-Distinction)	79-70% (Excellent- Distinction)	69-60% (Merit)	59-50% (Pass)	49-40% (Marginal Fail)	39-30% (Fail)	29-20% (Fail)	19-0% (Fail)
Knowledge and understanding of the topic/ issues under consideration (30%)	An exceptional and systematic demonstration of knowledge and understanding, which displays originality and presents some challenges to the boundaries of academic schools of thought.	An outstanding demonstration of knowledge and understanding, displaying originality and an advanced understanding of the topic relevant to the work.	An excellent demonstration of knowledge and understanding, displaying some originality and in-depth understanding in all key areas of knowledge relevant to the work.	A very good demonstration of knowledge and understanding, displaying in-depth understanding in all key areas of knowledge relevant to the work.	A satisfactory demonstration of knowledge and understanding, displaying the required understanding in all key areas of knowledge relevant to the work.	A weak demonstration of knowledge and understanding, displaying limited understanding of some key areas of knowledge relevant to the work.	An unsatisfactory demonstration of knowledge and understanding, displaying very limited understanding of some key areas of knowledge relevant to the work.	A poor demonstration of knowledge and understanding, displaying very limited understanding across a substantial proportion of key areas of knowledge relevant to the work.	A very poor demonstration of knowledge and understanding, displaying no familiarity with the course material or work and irrelevant to the key areas of knowledge applicable to the work.
Application of knowledge and understanding (30%)	An exceptional, original and comprehensive demonstration of the application of knowledge and understanding to address the learning outcomes assessed by the assignment and/or application to professional practice or real-world applicability.	An outstanding demonstration of the application of knowledge and understanding to address the learning outcomes assessed by the assignment and/or application to professional practice or real-world applicability.	An excellent demonstration of the application of knowledge and understanding to address the learning outcomes assessed by the assignment and/or application to professional practice or real-world applicability.	A very good demonstration of the application of knowledge and understanding to address the learning outcomes assessed by the assignment and/or application to professional practice or real-world applicability.	A satisfactory demonstration of the application of knowledge and understanding to address the learning outcomes assessed by the assignment and/or application to professional practice or real-world applicability.	A weak demonstration of the application of knowledge and understanding to address the learning outcomes assessed by the assignment and/or application to professional practice or real-world applicability.	An unsatisfactory demonstration of the application of knowledge and understanding to address the learning outcomes assessed by the assignment and/or application to professional practice or real-world applicability.	A poor demonstration of the application of knowledge and understanding to address the learning outcomes assessed by the assignment and/or application to professional practice or real-world applicability.	A very poor or no demonstration of application of knowledge and understanding to address the learning outcomes assessed by the assignment and/or application to professional practice or real-world applicability.

Post Graduate Grading Criteria for Coding/Programming Exercises

Criteria	100-90% (Exceptional-Distinction)	89-80% (Outstanding-Distinction)	79-70% (Excellent- Distinction)	69-60% (Merit)	59-50% (Pass)	49-40% (Marginal Fail)	39-30% (Fail)	29-20% (Fail)	19-0% (Fail)
Structure and Presentation (as detailed in the assessment guidance) (30%)	An exceptional structure and faultless presentation. Work is of a professional or publishable quality.	An outstanding structure and presentation, working towards a professional or publishable standard of work.	An excellent structure and presentation, which shows elements of presentation and structure at a professional or publishable standard.	A very good structure and presentation but may have some omissions against the guidelines.	A satisfactory structure and presentation that may not entirely follow the set guidelines.	Weakness in structure and presentation, that may not entirely follow the set guidelines.	Unsatisfactory structure and presentation that does not attempt to follow the set guidelines.	Poor structure and presentation that does not attempt to follow the set guidelines.	Very poor or incomplete structure and presentation that does not attempt to follow the set guidelines.
Academic integrity (10%)	An exceptional demonstration of academic writing, including correct use of academic convention, citation and/or referencing. Work shows academic integrity of a professional or publishable standard, fully conforming with institutional guidance.	An outstanding demonstration of academic writing, including correct use of academic convention, citation and/or referencing. Work shows an accurate attempt working towards a professional or publishable standard, with no errors of conforming with institutional guidance.	An excellent demonstration of academic writing, including correct use of academic conventions, citation and/or referencing. Work shows an accurate attempt, which shows elements of working towards a professional or publishable standard, with a very few errors of conforming with institutional guidance.	A very good demonstration of academic writing, including correct use of academic conventions, citation and/or referencing with only minor omissions. Work shows broadly accurate attempt, but with the odd weaknesses of conforming with institutional guidance.	A satisfactory demonstration of academic writing, including some correct use of academic conventions, citation and/or referencing. Work shows satisfactory attempt, but with some weaknesses of conforming with institutional guidance.	A weak demonstration of academic writing, including incorrect use of academic conventions, citation and/or referencing. Work shows some attempt, but with significant weaknesses of conforming with institutional guidance.	An unsatisfactory demonstration of academic writing, including incorrect use of academic conventions, citation and/or referencing. Work shows a largely weak attempt of conforming with institutional guidance.	A poor demonstration of academic writing, including incorrect use of academic conventions, citation and/or referencing. Work shows very little attempt of conforming with institutional guidance.	A very poor demonstration of academic writing, including absent and/or incorrect use of academic conventions, citation and referencing. Work shows no attempt of conforming with institutional guidance.

Post Graduate Grading Criteria for Coding/Programming Exercises

Single-Point Rubric to describe full-mark expectations for each assessment criteria. **Please note these expectations should be read along with (in the context of) the assessment task guidance.**

Assessment Criteria	Description of Standard Expectation/Proficiency
Knowledge and understanding of the topic/ issues under consideration (30%)	How well have you achieved the specifications/requirements of the given task? Have you completed all the required testing? Is the testing thorough and well organised? Is there accompanying documentation (which includes comments)? Does it provide an effective evaluation of the code/program?
Application of knowledge and understanding (30%)	Does your code/program execute correctly with minimal errors? Is this an efficient solution, easy to understand and maintain?
Structure and Presentation (as detailed in the assessment guidance) (30%)	How well have you followed the correct standards/best practice for your coding/programming exercise? Is the accompanying documentation (which includes comments) well-written? Have all other structural tasks been fully achieved?
Academic integrity (10%)	Have you demonstrated the required integrity in your submission, in line with institutional guidelines? For example, minimal use of sections of code from lecturecasts/unit notes and source clearly stated in the comments.
